

Sofia Bjørck

Partner

Bjørck works with commercial real estate and is specialized in property development and planning and building law. She has extensive experience with planning and building law and assists clients in construction matters and with questions related to the preparation and interpretation of zoning plans.

Bjørck has considerable experience with execution of development projects. This includes models for implementing zoning plans, cost sharing between developers and land acquisition. She also assists in the preparation, interpretation and negotiation of development agreement with public authorities.

Furthermore, Bjørck has extensive experience with property structuring, including division, sectioning and property registration. Bjørck also has considerable experience with general real estate law, including easements, joint property and issues related to neighboring properties.

Bjørck has published a number of articles within her field and is frequently used as a lecturer.
